## To Refill King Tin with a Fresh Energy

**Give an opportunity to a young man to serve you**

Youth are the pillars of our society, the future stars. They are passionate, energetic and ideal, and usually are the innovators and propellants for the advancement of our society. Being a youth and a social worker, I will uphold the principle of equity, justice, democracy and integrity, and aspire to serve the community as my ultimate goal. I pledge to use my professional knowledge and skills, and my most time to serve the community and to better scrutinize governance. Your choice of a young, energetic and ideal professional will refill King Tin with a fresh energy.
